

VEHICLE TESTING

— IN JÄMTAND HÄRJEDALEN —

Jämtland Härjedalen's central geographic location has always been one of our strengths. We can easily collaborate with Norway's Trøndelag to the west while also having a strategic position in the middle of Sweden. It is a place of untouched nature, a unique mountain area and a true city pulse from the heart of Östersund. We have well-established infrastructure so travelling to and from the region is quick by plane, train and electric car. All this means that Jämtland Härjedalen is a popular destination in summer and winter alike, for both national and international visitors.

In recent years we have also seen a drastic increase in the number of people moving to the region, which has broadened the skill set of the population. There are already a number of training courses within the sector, but this can be further developed as progress is taking place quickly with new technology companies regularly choosing to be based here.

We have a dense electricity charging infrastructure across the entire county and there is capacity for HGVs as well as major energy-intensive businesses, such as data centres and battery manufacturing. All this is supplied by green electricity which is produced right here.

Jämtland Härjedalen has a unique base from which to start, and we have good conditions for building a larger platform for the automotive industry.

Frösöpark FRÖSÖN
Offers: A hotel, testing arena, ice tracks and an event arena.

Molanda JÄRPEN
Offers: An airfield, testing arena, motor tracks, off-road tracks, an area for further land development.

Åre
The cream of the motor testing world in wintertime, with a range of attractive, public events.
Offers: A testing arena and a good location for public events.

Vehicle testing on Åresjön lake.

🚆 **Train time** 5 hours Östersund–Stockholm

🎓 **Mid Sweden University** 7,000 students

- Number of EV charging stations: **146**
- Number of EV charging points: **522**
- Public rapid EV chargers **25**

Research, development and skills

- A few relevant actors:
- EMC lab**
SWEDAC accredited, suitable for vehicles.
Offers: Testing laboratory, tests electrical disturbances on vehicles and components.
- Mid Sweden University**
Offers: Education and research including access to a wind tunnel.
- IUC Z-group**
A skills hub for the county's industrial cluster.
Offers: Courses, networks and support.

Depå Grande RISSNA
Run by motorsports enthusiasts with many years of rally experience since 2003.
Offers: Rally testing, vehicle testing, commercial activities, courses, conferences and events, accommodation, food and access to a garage.

Borgafjäll
On the border of Jämtland and Västerbotten, this is a unique mountain area with guaranteed snow where all roads come to an end.
Offers: Existing driving areas.

MidSweden 365 GÄLLÖ
Unique event and testing environment with the possibility to drive on snow all year round.
Offers: A constant temperature of -4 degrees, plenty of storage and garage space, attractive outdoor environment for use. Food and accommodation can be arranged.

Kall
Vehicle testing has been conducted in Kall for more than 20 years. Kall was built specifically for motor testing, which means that it has a long history of events and motor testing. It is an undisturbed area of natural beauty with lakes and roads, and is also close to Åre.
Offers: Testing on ice tracks, off-road tracks, a hotel, premises and a garage next to the testing area.

Offerdals motorstadion RISE/ÄNGE
A large area in a growing community. Building is in full swing in the area with new companies setting up while existing companies are expanding.
Offers: A motor track and usable spaces.

Trötänga HERRÖ SVEG
An area of five hectares of marshlands where secure tests are conducted. It is possible to land small aircraft and carry out vehicle testing. "Tröt" means "play" and "Änga" means meadow or marsh, which is a good description of the activities here.
Offers: Ice track and motor track during the winter season on a 5-kilometre area of marshlands. Also an off-road track.

Hedlanda VEMDALEN
Hedlanda is located near two ski resorts, with just 15 minutes to both Björnrike and Vemdalskalet resorts. This is an area that is growing rapidly and is in the initial stages of further land development.
Offers: An airfield, ice track, off-road track, tests and activities.

If you are looking to grow your company in the vehicle and motor testing sector, we welcome you to an established market in Jämtland Härjedalen.
